

### Edelstahl

Dieses System wurde zur flexiblen Umsetzung von Leitsystemen mit hohem Anspruch an Design und Funktion entwickelt. Die Kombination von Edelstahl und Acrylglas garantiert Langlebigkeit und führt zu einer hohen Wertigkeit der Schildmodule. Der Einsatz dieser klassischen und zeitlosen Materialien ermöglicht die Integration in nahezu jede Architektur.

### Stainless steel

This system was used for flexible implementation of orientation systems with a high standard of design and function. The combination of stainless steel and acrylic glass ensures durability and leads to a high value of the sign modules. The use of these classic and timeless Materials allows integration into almost any architecture.

### Format

Breite x Höhe - width x height  
Rahmen Edelstahl - frame stainless steel

### Art.-Nr.

### Montage - mounting

Art angeben - type specify

schrauben  
screw

kleben  
adhesive

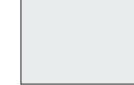

### Türschilder - Door signs

|                            |              |                                     |                                     |
